

10th Danish Symposium in Analytical Chemistry

DanSAK10 www.dansak.ku.dk

17–18 August 2010

University of Copenhagen, Faculty of Life Sciences
Thorvaldsensvej 40, 1871 Frederiksberg, Copenhagen

Auditorium 3-14 + Marble Hall

Invited speakers in five sessions

- **Renger Jellema**, *DSM Biotechnology Center, Netherlands*
Chemometrics in an industrial setting
- **Rasmus Bro**, *University of Copenhagen, Denmark*
Chemometrics integrated in analytical chemistry
- **Zoltan Takats**, *Justus Liebig-Universität Giessen, Germany*
DESI-MS – Desorption ElectroSpray Ionization Mass Spectrometry
- **Chris Dial**, *Catalent Pharma Solutions, North Carolina, USA*
I've discovered an OOS impurity on stability. Now what?: Managing OOS Unknown (or Unspecified) Impurities
- **Steen Honoré Hansen**, *Univ. Copenhagen, Denmark*
Present developments and initiatives in the techniques for quality assessment of API's and Herbals in Ph.Eur.
- **Claudia Paoletti**, *European Food Safety Authority (EFSA), Parma, Italy*
GMO analysis in relation to risk assessment and food safety
- **Kim H. Esbensen**, *Aalborg Univ. Esbjerg, Denmark*
Sampling for analysis of GMO's
- New techniques in analytical chemistry

Contact to organising committee dansak@life.ku.dk or www.dansak.ku.dk
Register online at www.dansak.ku.dk/Register.aspx (extended deadline)

Bjarne W. Strobel (chair), KU-LIFE
Martin M. Larsen, Danish Society of Analytical Chemistry
Henrik Jensen, Analytikerringen
Jens E. T. Andersen, DTU
Steen Honoré Hansen, KU-FARMA
Bo Svensmark, KU-SCIENCE

In connection to DanSAK10, a one-day meeting "Metabolomics in Systems Biology" is organised the same place in cooperation between DanSAK and the Biochemistry Society.
