

Travel grants for course study for RECETO Ph.D. students

The Research School of Environmental Chemistry, Microbiology, and Toxicology (RECETO) is pleased to announce the availability of a number of travel grants for study abroad for RECETO Ph.D. students.

The purpose is to support Ph.D. students who need to travel abroad to take courses that are critical for their Ph.D. studies, but for which an equivalent course is not offered at RECETO institutions. The course topics must relate to environmental chemistry, microbiology, and toxicology and give credit for at least 6 ECTS.

Applications must contain the following:

- A completed application form. Find the form at:
<http://www.receto.dk/Vacancies-and-Scholarships/Application-forms.aspx>
- A course description, including aims, content, teachers, outcome, study credits, evaluation form, location, and time of start and finish.
- The student's CV and publication list.

Applications can be submitted to the RECETO secretariat at any time.

If you have questions, contact the RECETO secretariat at receto@life.ku.dk
